

Humboldt Redwood COMPANY, LLC

POSITION TITLE: Seasonal Wildlife Technician (4 Positions)
WORK LOCATION: Scotia, CA

SUMMARY

Surveys and monitors threatened, endangered, and sensitive species associated with timber harvesting plans (THPs), and the HRC Habitat Conservation Plan (HCP). This position is seasonal in nature and will run March through August.

ESSENTIAL DUTIES AND RESPONSIBILITIES include, but are not limited to the following. Other duties may be assigned.

- Conducts Northern Spotted Owl (NSO) surveys and monitoring;
- Conducts surveys for other Threatened Endangered Sensitive (TES) species;
- Cares for and maintains rodent colony and feeds live mice to NSOs;
- Assists with database, office and field preparations;
- Works alone or in small groups in remote areas often at night (i.e. conducting night surveys on foot);
- Safely navigates steep and difficult terrain and occasionally works in inclement weather.

QUALIFICATIONS

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Must maintain and carry a valid California driver license and remain eligible and capable of operating company vehicles including automobiles, trucks and large 4-wheel drive vehicles in accordance with company policy guidelines. With appropriate training, an individual must be capable of safely and effectively operating (run, maneuver, navigate and drive in various types of territory) all terrain vehicles in accordance with company policy guidelines.

EDUCATION and/or EXPERIENCE

High school diploma or general education degree (GED) and course work toward a Bachelor's degree (B.S. or B.A.) from four-year college or university in Wildlife Biology or Forest Science, or related field; or at least 3 months related experience and/or training; or equivalent combination of education and experience. Familiarity with safe capturing and handling of small mammals and with concepts in forest ecology, and wildlife management techniques is desired. Must have the ability to use directional compass and topographical maps and to identify northern California birds visually and acoustically.

PHYSICAL DEMANDS

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job.

While performing the duties of this job, the employee is frequently required to sit; stand; walk; hike in steep and rugged terrain; use hands to finger, handle, or feel; reach with hands and arms; climb or balance; stoop, kneel, crouch, or crawl; and communicate. The employee must occasionally lift and/or move up to 25 pounds. Specific vision abilities required by this job include close, distance, color, depth perception, and ability to adjust focus. Normal hearing ability is required for work that involves acoustic surveys for birds. The employee is occasionally exposed to outside adverse weather conditions.

APPLICATION PROCESS:

Interested applicants should submit a letter of interest and a current resume with salary history to recruiter2@hrcllc.com.
